

A great opening par 5, it is a long dog-leg to the left. From the tee it's your driver and the best line is middle right of fairway avoiding the bunker down the left as it can come into play. Your second shot needs to be hit with a draw or hit down the left side of this sloping fairway to give you the best line into the green. For your third shot you will need to fly over the Olive tree's just short of the green. There is a bunker on each side of this large green.

Hole 2

From the tee it's your driver to a wide open fairway. Watch out for the out of bounds far right and left also there are three fairway bunkers down the left side of this fairway. With a good drive from the tee you should only have a short iron to the green. This is a large green and from the fairway it looks flat but, watch out for the big slope to the back of this green, club selection is all important. There is one large bunker to the left of the green and one short right.

This par 4 has a wide fairway and uphill for the first 220 metres or so then flattens out to the green. For the big hitters watch out for the bunker at the top of the hill left as it can come into play. Your second shot should only be a medium to short iron. The green is another large flat one protected by two bunkers one front right and the other far left.

This is a short par 4 and you can use a driver or 3 wood from the tee. All the trouble is left at this hole, there is a long fairway bunker down the left and further left there is a deep ravine with trees. Best line from the tee is down the middle, with a good tee shot it's only a very short iron to this new green. The green slopes from back to front and is protected with two bunkers, one front right and the other back left, easy par 4.

This is another great par 5 and it's a driver from the tee. This hole is a dog-leg left all uphill and the fairway slopes to the right. Your best line from the tee is just left of centre as the ball will kick right. Your second shot should be placed up the middle right to give you a good line into the pin with your third shot. Short left of the green there is a deep ravine with large trees, avoid going left. There is one flat bunker about 50m short right of the green and another deeper one right edge of this green. Played as a par 5 you should have a good chance to make a birdie or easy par.

From the tee this hole dog-legs to the right, this is one for the big hitters out there, you can cut the corner and drive the green or end up being snookered behind one of the many Olive trees protecting this green. The best line from the tee is down the middle left, this will give you a good view down to the green for your second shot with only a short iron. Watch out for the bunker to your far left side of this wide open fairway. There are no bunkers round this green but watch out for the Olive tree's as they surround this green and make it tricky to get close to the pin to make par. to get close to the pin to make par.

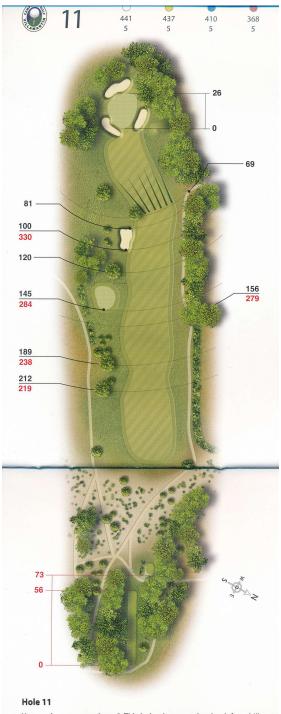

This hole plays very similar to hole 3 but very slightly shorter. Its a driver from the teeu phill to a wide fairway but watch out for the tall tree's on the right side and the bunker at the top of the hill again right side. Your second shot is about a short to medium iron to a green largely protected by bunkers. One front right, back right, front left and back left. A good crisp second shot to the green will reward you with an easy par you with an easy par.

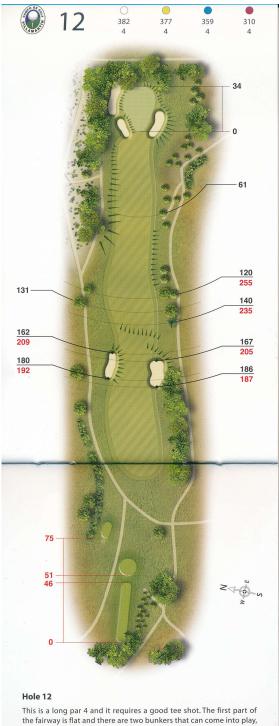

The tenth tee is just in front of the clubhouse and from the tee it looks very narrow. There is out of bounds down the left side and woods to the right. Best line of this tee is middle left with a 3 wood from the tee. Just short right of the green is a large gully try and keep clear of this as it make your second shot very difficult. With a good tee shot you should only have about a 9 iron or wedge to this large soft green. Watch out for the two bunkers left side of this green and try not to go through the green as there is a very steep bank which may result in a lost ball.

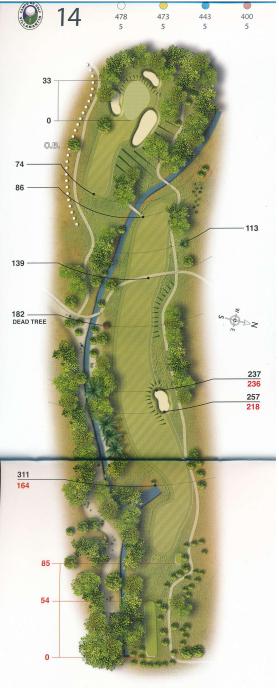

Yet another very good par 5. This hole plays as a dog-leg left, uphill for the first 300m. Your best line from the tee is middle left just inside the tree at the top of the hill. There is only one fairway bunker left of the tree and from there it's all downhill to the green. The line on your second shot is straight over the top of the tree left. Its worth going to the top of the hill to get your best line as it's a tricky green to hit in two shots. For a lay up, your second shot should be played with a long iron, this will leave you a good wedge to the putting surface. The green slopes from back to front and is protected with three bunkers, one front left, front right and one at the back.

This is a long par 4 and it requires a good tee shot. The first part of the fairway is flat and there are two bunkers that can come into play, from the tee, on the left and right. After the bunkers the fairway dips down and then plays uphill to an elevated green. With a good drive your second shot will be a midiron up to a long wide green. The green is open from the front but watch out for the green side bunkers left and right, also try not to miss this green to the right as your ball will take a very nasty kick down the slope and make it very difficult to make par.

Hole 14

This hole is stroke index 1 on the scorecard and rightly so. From the tee its your driver, don't go left as there is a deep gorge that runs all the way up the left side of this wide fairway. Your best line from the tee is the bunker up the right side of the fairway your ball will kick back into the middle of the fairway as it slops right to left. With your second shot you should lay up short of the deep ditch that runs all the way across the fairway, this should leave you in a good position to hit the green in three. On your third shot there is a line of tall tree's to play over up hill to this large green. The green is protected by one large bunker short right, one green side left and another at the back.

From the tee there is out of bounds down the left side of this flat fairway. Down the right side there is a new water hazard. With a good tee shot down the middle your second shot will only be a short iron to the green. Things to watch out for on your second shot are the new water hazards front right, right and back of this large green. There are also two bunkers green side left, but with a good crisp second shot you should have a birdie chance at this hole.

This long par 4 plays as a very slight dog-leg left. From the tee your best line is just right of the left hand fairway bunker as the fairway slopes left to right. It can be quite a long second shot but if you hit the ball straight it will run down onto the green. The green is long and wide so club selection is the key to making a good par at this hole. Watch out for the green side bunkers both left and right.

This hole plays as a dog-leg left with out of bounds down the right and left hand side of this wide fairway. It's a driver from the tee down the middle watch out for the fairway bunker far left. This fairway is covered with Olive trees and you need a bit of luck here so that you are not snookered by one of them for your second shot. If you are in the clear its about a 7 iron to the green. There are two bunkers short of the green and a further three green side, one front right and two to the left. This green is wide but also very long so club selection is all important to making a good par to finish with.
